

Thank You Letter for Dr. Hans

My name is Dr. Haroon Muzaffar. My daughter, Fatima Haroon, had a cochlear implant done at 3 years of age by Dr. J.M. Hans at Rockland Hospital, New Delhi, on October 21, 2012. My daughter had been suffering from profound bilateral sensorineural hearing loss since her birth. She was getting no benefit from high power hearing aids. The effects on her development were devastating for my family. My daughter was unable to speak due to her hearing loss, which was heartbreaking for my wife and me. After extensive screening with BERA, ASSR, OAE, and tympanometry testing, I realized that we had no further options other than an implant.

I chose Dr. Hans because he has had experience in over 1000 of these kinds of surgeries. He has an excellent bedside manner and explained the implant procedure completely, in a very calm and friendly way, to my wife and me. He has mastered all four cochlear implant systems that are currently available in the world. He uses the latest method of implant, transcanal technique, which significantly reduces the risk of infection. With this particular technique, operative time is also reduced and is able to be completed in just 35 to 40 minutes. After meeting Dr. Hans, we were confident that we had finally found someone who could help our daughter.

By the Grace of Allah Almighty, after my daughter's operation there were no postoperative complications. Postoperative x-rays showed all electrodes are finely inserted in the skull, thanks to the skill of Dr. Hans. Fatima is now almost 4 years old. I cannot begin to explain how Dr. Hans' amazing work has changed the life of my daughter and my family. Every time that I hear my daughter speak I am overcome with joy. She has started speaking a few words, such as Papa, Mama, Pani, names of different parts of body, etc. She can listen to everything now! I am so thankful to Dr. Hans for giving my daughter her hearing back and enabling her to speak.

Thanks to Allah for showing me the path to Dr. Hans' clinic.

Thank You Dr. Hans

Papa!! Mama...these words make my eyes glow and my face smile....It brought tears to my eyes when I first heard my 4 years old daughter Fatima saying these words after cochlear implant surgery. My hero is Dr. Hans, who offered us this surgery with excellent results. Based in India; he is among the pioneers of this surgery in South Asian territory. We can't thank him enough for this great treatment!!!!
